Draft/AIDS/HIV Policy

The Ohio State University is committed to providing a comprehensive and caring response to the Aids/HIV epidemic. This response shall consist of three major parts as follows:

1. Educational programs for all faculty, staff and students in order to increase our understanding and compassion for those who have contracted the disease and to prevent its further spread.
2. Guidelines for the provision of reasonable accommodation, information and referral, confidentiality and??? for faculty, staff or students who have AIDS or are HIV infected.
3. Risk identification and reduction programs that will ensure adherence to health and safety standards, guidelines and practices for the entire University community.
